

THE TERRACE MEDICAL PRACTICE TRAVEL CLINIC

We are making changes to the provision of travel vaccines commencing 01/03/2017.

We request that you complete a detailed Travel Questionnaire at least 8 weeks prior to travel; this is because some courses of vaccines can take up to a month to be administered. Questionnaires can be obtained from reception or can be downloaded from our website. Please return completed questionnaire to Reception. The Practice will notify you if you require an appointment and/or prescription.

We will no longer be able to provide non NHS vaccines but will continue to provide the following NHS vaccines:

Diphtheria/Polio/Tetanus –combined injection

Hepatitis A

Typhoid

Only these NHS vaccines will be administered in the surgery.

Please consult www.fitfortravel.nhs.uk website which provides lots of useful information regarding general travel health and lists vaccination requirements/recommendations for all countries throughout the world. For travel sundries check www.staywelltravel.co.uk. If you do not have internet access then please make an appointment to discuss requirements with the practice nurse.

In the UK, the cost of drugs used to prevent malaria is not covered by the NHS but is met by the traveller. Some of these drugs are available to buy over the counter from pharmacies, but some are only available by private prescription. The Travel Clinics listed below will be able to provide these prescriptions and/or drugs for you. Boots in Baljaffray, tel: 0141 943 0348 and Graeme's Pharmacy in Milngavie, tel: 0141 956 1710 have Pharmacy Prescribers who can prescribe and issue these drugs (please phone in advance to ensure the Prescribing Pharmacist is available).

Non NHS vaccines are available from any of the following Travel clinics based around the city:
